Course Breakdown

The 120 hour Advanced TEFL Course is broken down into lessons and units to make the content easier to digest.

You'll have interactive quizzes throughout the course to check your progress and you can attempt these as many times as you need.

Introduction to TEFL and the English Language

UNIT 1

Understanding your students' motivations and needs for studying English, as well as common teaching methodologies used inside TEFL classrooms. Get to know the basic principles behind TEFL teaching.

The Role of the Teacher

UNIT 2

This module teaches you about the various "roles" teachers play in the classroom and how to effectively deal with classroom management.

You will also learn all about the different types of "needs" your learners will have, as well as errors and error correction.

Teaching Grammar

UNIT 3

Grammar is always a prickly topic, but it's a must in the TEFL classroom! Not to worry though, this module explains all about the most important aspects of grammar that you will need to know to get you grammar-ready, as well as teaches you different grammar approaches and how to apply them in the classroom.

Teaching Vocabulary

UNIT 4

Did you know that there are 150,000-200,000 words in the English language? Don't worry, you'll only be asked to teach a few hundred of those! Vocabulary can be a lot of fun in the TEFL classroom, and in this module, you'll learn all about how it's grouped, how to teach it and different activities that you can use to make it fun in your lessons!

Course Breakdown

Teaching Receptive Skills (Reading & Listening)

UNIT 5

Reading and listening are both skills that involve your learners "receiving" language. By the end of this lesson, you'll know the most effective ways to engage students in reading and listening in English, and you will be proficient in the types of activities and materials that make for a successful receptive skills class.

Teaching Productive Skills (Writing & Speaking)

UNIT 6

Now that you've covered "receptive" skills, "productive" skills are next – Speaking and writing. You'll learn plenty of useful ideas about how to get your students up on their feet and engaging in dynamic discussions, as well as how to approach learning writing, and the best materials and activities for each.

How to Teach Pronunciation and Phonology

UNIT 7

Phonology is fascinating! This module will help you to master core phonological concepts such as word stress and connected speech, and build your confidence in teaching this often mysterious TEFL topic. Pronunciation is hugely important to some English learners, and you will become fully fluent in teaching these important concepts in no time!

Lesson Planning

UNIT 8

Being the best teacher you can be is down to planning. In this module, you'll learn lesson planning techniques that will not only save you time but will ensure that your lessons run smoothly. You'll gain students' respect which of course is great for reviews (especially if you are teaching online).

Teaching Young Learners, Testing, Exams, and Business English

UNIT 9

Teaching English is not all about learning grammar and lexical rules, there are so many fascinating pathways to specialise in! This module teaches you how to teach young learners, the ins and outs of teaching English for exams, how to approach testing in the classroom, and deliver a great business English lesson! It's definitely not one you want to miss...

From Course to Classroom

UNIT 10

As you near the end of your course, you'll no doubt be thinking how to secure that first job and begin your exciting new adventure... In this module, you learn useful resume writing skills, understand how to search for TEFL jobs, build up your own personal repository of TEFL resources, and master the importance of continuous professional development. In no time at all, you'll be a fully-fledged TEFL teacher!
